

Mygale will exhibit its Formula 4 at Motorex in Geneva from 20th to 22nd June 2017

The life of Formula 4 FIA Mygale - June 2017

After Goodwood, Munich, Mexico City and Turin last year, the FIA's annual conference will be held in Geneva from 20 to 22 June, bringing together all representatives from the national motorsport federations in the world. Jean Todt, President of the FIA, will be opening this year's theme: "Progress and Direction: Together in a Decade of Change."

The FIA 2017 Sport Conference will cover the key issues faced by motorsport over the past decade. The program will remind us that "we have experienced unprecedented changes in our sport: "green" engines, sustainable events, interaction with fans, the effort to ensure safety, how motorsport federations function around the world. The event will be a great opportunity to identify these challenges and look to the future."

Mygale, as every year, will be exhibiting its latest Formula 4 model (Stand 4P in Valleiry on June 22nd).
