DEVELOPING TOMORROW'S TALENT

## Mygale China

### What's happening in Formula 4 - July 2019

In order to improve support of its customers and benefit from the expansion of the local market, MYGALE has decided to create a subsidiary in China: **Mygale (Ningbo) Automotive Technology Co., Ltd.**, created on June 10th.

The promoter of F4 China, Mitime, is the owner of the Ningbo circuit where this new company is based. The company is now operational with a full-time engineer in charge of its development.

The first mission for **Mygale (Ningbo) Automotive Technology Co., Ltd.** was to accompany Mitime with the development of F4 in China. A contract with Jiangsu Saleen Automotive Technology Co. Ltd. quickly followed for the launch of the Saleen single-seater at the Saleen night in Beijing.
