

FIA Cross Car training in Hanoi

What's happening in XC Cross Car - December 2019

MYGALE presented its Cross Car at two days of training organized by the Confederation of Australian Motor Sport (CAMS) for federations and championship promoters. The aim was to present the different aspects of the new FIA regulations for Cross Car, relating to the car, the organization and the circuits.

The operation took place under the supervision of the CAMS and the FIA in Hanoi, Vietnam and with the support of Rémi Larratte, our engineer in charge of development of **MYGALE China**. The participants benefited from Molly Taylor's driving advice before getting behind the wheel of the XC Cross Car.

A popular experience and to be repeated!
