

Mygale exhibits Formula 4 in FIA Sport Motorex in Turin from June 24th to 26th 2016.

The life of Formula 4 FIA Mygale - June 2016

After Goodwood, Munich and Mexico, FIA Sport Motorex took place in Turin in 2016, gathering leading personnel from all the governing bodies and representatives of the highest levels of motor sport throughout the world. FIA President Jean Todt was pleased to host this influential gathering in Turin.

Exhibition theme: "Passion and Innovation: The Past, Present and Future of Motor Sport"

It was a great opportunity to present the **Mygale Formula 4** package which not only provides access to a single-seater racing car worldwide, but includes how this can be presented to both drivers and the public. **Formula 4** is now unquestionably the recommended starting point for future star drivers to progress up the pyramid of single-seater racing.

Jean Todt stressed the importance of accessibility: *"I think that solutions exist today to enable everyone who is passionate about the sport, in every place where there is an FIA club, to participate in motor sport. It is up to us, the FIA and you, the ASNs, to accompany them."*

The opportunities around the world keep opening up for this **Mygale Formula 4** with a new look across many championships : F4 CAMS Australian, F4 Chinese, F4 NACAM Mexico, F4 South-East Asia and F4 British certified by FIA. We hope to sign a new championship soon.
